

THURSDAY 9:30-10:45am		Invited Session Microbiome Panel: The Role of the Microbiota in Asthma; Mood & the Microbiota; Biopsychosocial ecology as a transdisciplinary lens to the human microbiome and the (r)evolution of 21st Century medicine	LBCT 1 Changing Depression, Mood & Stress for Better Health: Huffman, Rollman, Watanabe (1490, 1809, 1784)	Paper Session Cortisol: Koffer, Herriot, Pauly, Wen, Melhem, (1725, 1063, 1079, 1506, 1239)	Symposium 1247 From body to mind (and vice versa) via heart rate variability	Symposium 1757 Grief trajectories and individual differences: From mind to body and back?	Paper Session Discrimination: Beatty Moody, Ashe, Danyluck, Campbell, Rahal (1691, 1660, 1024, 1718, 1331)								
10:45-11:00am	Break														
11:00am-12:00pm		Invited Session Open Science & Psychosomatic Medicine	Symposium 1186 Identifying intervention targets to simultaneously reduce posttraumatic stress disorder and secondary cardiovascular disease risk: The REACH studies	Paper Session Socioeconomic Status: Fairbank, Levine, Surachman, Faulkner (1770, 1179, 1011, 1192)	Paper Session HIV: Ironson, Polanka, Cho, McIntosh (1662, 1549, 1625, 1712)	Paper Session Diabetes: Graham, Smith, Panagi, Hsueh (1610, 1351, 1201, 1057)	Paper Session Mindfulness Interventions: Knowles, Manigault, Sinclair, Fowler, (1043, 1132, 1722,1740)								
12:00-1:15pm	Lunch On Your Own/ Cmte Mtgs/ Wellness Activity: Lunchtime Walking Tour with Linda Carlson														
1:15-2:15pm		Invited Session Best Practices in Teaching Psychosomatic Medicine	Paper Session Caregiving: Gouin, Kim, Hawken, Sannes (1707, 1170, 1472, 1579)	Paper Session Linking Neighborhoods to Health: Austin, Hussain, Holber, Miller (1136, 1074, 1535, 1461)	Symposium 1139 Early life microbiome and child health	Paper Session Sex Differences in Heart Disease: Sadlonova, Mommersteeg, Kupper, Smaardijk (1115, 1470, 1150, 1210)	Symposium 1346 Emotional Awareness & Chronic Pain								
2:15-2:30pm	Break														
2:30-3:45pm		Symposium 1385 The future of smartphones & mobile devices in biobehavioral science	Symposium 1539 Psychosocial Experiences and Regulation of the Human Genome	Symposium 1157 Stress and Resilience during the Postpartum Period: Implications for Maternal and Child Health Over the Life Course	Symposium 1614 Prediction and prevention of Emotional and Physical problems in breast cancer survivors	Symposium 1241 Psychosocial resources & risk for CVD: findings from across life course	Symposium 1401 Diet Across the lifespan: Stress, metabolic health & cognition								

FRIDAY 10:25-10:30am	Stretch break												
10:30- 11:15am	Award Plenary	Barchas Award: Steve Cole											
11:15- 11:30am	Transition												
11:30am- 12:30pm		Invited Session Psychosomatic Medicine Perspectives on Sickle Cell Anemia	Paper Session Neuroscience: Paniukov, Labus, Ginty, Lima (1668, 1728, 1258, 1607)	Paper Session Inflammation: Williams, Kraynak, Jutagir, Rohleder (1750, 1772, 1033, 1373)	Symposium 1384 Unpacking the influence of stress on sleep	Paper Session Ambulatory Blood Pressure: Zawadzki, Small, Merritt, Doyle (1693, 1548, 1643, 1816)	Panel Session Emotion after MI (interventions, recurrent events & mortality)						
12:30-1:30pm	Lunch On Your Own/ Cmte Mtgs/ Wellness									PsyMed Editorial Board Lunch (invitation only)	Wellness Activity: Mindfulness Approaches to Releasing us from Scientific Biases with Eric Loucks		
1:30-2:45pm		Invited Session Cardiovascular Stress Reactivity and Health: Where Are We Now?	Symposium 1044 The Necessary Inseparability of Mind and Body: Implications of Computational Neuroscience for Psychosomatic Medicine	Symposium 1155 Biological Embedding of Early Life Adversity Across the Lifespan	Paper Session Mental Health: Jonassaint, Aschbacher, Chat, Eisenlohr- Moul, Libowitz (1726, 1227, 1114, 1425, 1501)	Late Breaking Research in Culture, Ethnicity & Discrimination: Fuller-Rowell, Brondolo, Acevedo, Flores, Brown (1801, 1832, 1830, 1752, 1656)	Symposium 1212 Beyond panic: Beyond panic: An update on the prognosis, risk factors and treatment of patients with non- cardiac chest pain						
2:45-3:00pm	Break												
3:00-4:00pm		Symposium 1397 New perspectives on reducing stress	Symposium 1442 Pain-related fear, avoidance and decision making: insights from computational modeling and brain imaging	Symposium 1324 How can qualitative methodologies advance the excellent & relevance of psychosomatic medicine research?	Paper Session New Developments in Intervention Research: Moss- Morris, Feinstein, Flux, Sawchuk (1571, 1593, 1702, 1493)	Panel Session A Call to Action: Embracing Culturally Inclusive Biobehavioral Research	Paper Session Biopsychology in Patient Populations: Karabatzakis, McFarland, Shell, Kop (1674, 1773, 1319, 1621)
