

Ford Foundation Postdoctoral Fellowship

Description of Award

The postdoctoral fellowships provide one year of support for individuals engaged in postdoctoral study after the attainment of the Doctor of Philosophy (Ph.D.) or Doctor of Science (Sc.D.) degree.

Postdoctoral fellowships will be awarded in a national competition administered by the National Academies of Sciences, Engineering, and Medicine on behalf of the Ford Foundation. The awards will be made to individuals who, in the judgment of the review panels, have demonstrated superior academic achievement, are committed to a career in teaching and research at the college or university level in the U.S., show promise of future achievement as scholars and teachers, and are well prepared to use diversity as a resource for enriching the education of all students.
